

Individual modifications and options

SPECIFIC CABLE AND CONNECTOR CONFIGURATIONS

We manufacture your keyboard with individual cable length, specific connectors and connector pinnings.

POINTING DEVICES

You can select different devices for cursor control, both external and incorporated pointing devices are available. Choose between HulaPoint™, touchpad and several trackball options.

SIZE AND DESIGN

In case non of our existing products are suitable to your application, it would be our pleasure to discuss with you a specific product design. You can profit by our long experience in designing, developing and manufacturing professional input devices.

COLOR

Should our products not match with the colors of your accompanying devices, we can do them for you in a specific color.

BACK LIGHTING

Our back light models are usually coming with blue light LED. They are dimmable in steps and can be switched off. Individual backlight options can be realized on option.

MOUNTING

Individual mounting solutions either frontpanel- or rack mounted can be offered.

LANGUAGES

Many foreign languages are already offered beside the standard layouts German and US. Any additional language version can be realized on request.
